

## Accessing Library Databases

### Accessing GBCC Library's Databases

Your EasyLogin, or **email username** and **email password**, are used to access the Library's database subscriptions. As long as you leave your browser window open, you can come back to the Library website and select another resource without logging in again. Contact us at [reference@ccsnh.edu](mailto:reference@ccsnh.edu) if you have trouble accessing Library resources.

### College Library Database Login

Please enter your email username and password as in the examples below:

**Students:**

If your email address is **jdoh123@students.ccsnh.edu**

Then your username is **jdoh123**

**Faculty and Staff:**

If your email address is **jdoh@ccsnh.edu**

Then your username is **jdoh**

**In both cases your password is your email password.**

Please enter your username:

Please enter your password:

Login

### Accessing Library Resources from/for other CCSNH Colleges

If you are taking courses at more than one CCSNH college, always access library resources from within the Canvas course you are currently working. When prompted, select the college that is hosting that course. Be sure you know which CCSNH college your course belongs to.

If you try to access library resources from a different college within a short amount of time, you may experience login issues.

To avoid problems, use a separate web browser for courses from different CCSNH colleges (for example, Chrome for GBCC courses and Firefox for MCC or other CCSNH courses).
